EXPERIENCE

Impact 365 Tourism & Experiences — Frontend Intern

Dec 2025 – May 2026

- Developed and maintained client-facing websites using HTML, CSS, and JavaScript; improved UI responsiveness and cross-browser stability.
- Collaborated with senior developers to deliver production features on time; implemented custom components to enhance design consistency.

PROJECTS

Anvaya CRM [Live | GitHub]

Dec 2025 – Feb 2026

- Built a MERN stack application for customer lead management; integrated Chart.js for real-time business performance visualization.
- Architected RESTful APIs with Node.js/Express and designed optimized MongoDB schemas for efficient data handling and high performance.

Globaza E-commerce [Live | GitHub]

Aug 2025 – Oct 2025

- Developed a full-featured platform with dynamic product filtering and search; integrated a React front-end with a Node.js/Express back-end.
- Implemented secure user authentication and a robust shopping cart system; improved application performance through state management.

Meetups Discovery App [Live | GitHub]

Jun 2025 – Jul 2025

- Created an event discovery tool using React.js and JavaScript; implemented multi-page navigation with React Router.
- Consumed external REST APIs via Fetch API for real-time event updates; achieved a seamless user experience with category-based filtering.
